

Features

- High quality steel materials, offering a light weight but robust, exceptionally strong product.
- Triple spur gearing makes lifting easier and provides increased durability.
- Safety brake works instantly when operation is stopped, holding the load safely. Load chain stopper prevents accidents by serving as a stopper when the load chain is over its full length in lowering heavy loads. Heat treated high quality alloy steel chain provides durability ensuring long term use.
- Each hoist is equipped with top and bottom swivel hooks with safety latches.

Model	Capacity	Standard lift	Headroom	No. of falls	Load chain diam.	Shipping weight
